This is UNEVALUATED Information

25X1

On the **occasion** of an inspection of construction **project** No. 514, Doberlug II, on 22 June 1955, the following information was obtained:

1. Construction project No. 514 is located about 800 meters from the southern town edge of Doberlug, west of the highway leading from Doberlug to Schoenborn.

2. Doberlug II is a repair shop for all KVP artillery weapons corresponding with the repair shop for tank weapons at Neubrandenburg. At present, Doberlug II is not subordinate to Bereitschaft No. 3,000 at Dresden (Colonel Pilz) while the repair shop at Neubrandenburg is directly subordinate to the headquarters of the KVP, Strausberg, Verwaltung Bewaffnung (Administration for Armament).

3. The following installations are completed and in operation:

Artillery workshop (old)
Artillery workshop equipped with a travelling crane with a capacity of 8 tons (new)
Garage for 40 motor vehicles (old)
Depot
Administrative building
Temporary building with lavatories and dressing rooms

The following installations are planned or under construction:

Additional artillery workshop
Optical workshop
Sandblast workshop
Magazine
Transformer station.[1]

4. The following was learned [redacted] of Objects Doberlug I, II, and III, who also participated in the inspection: 25X1

a. Repair work on guns was done at Doberlug II. After completion, these guns were transferred to Doberlug III/Hennersdorf which is located 5 km. northeast of Doberlug. From there, the guns were shipped by rail or trucks
